

Re: Docket# 98N-1038, "Irradiation in the Production, Processing,
and Handling of Food."

I want the FDA to continue prominent labeling of food that has
been treated with irradiation. The label should be conspicuous and
include the logo for irradiation.

Your Signature:

Susan A. Bailey

Additional comments: *I want to know what I'm getting.
I've already been experimented on by medical
radiation the government never protected me
from and the after affects of this is lived
about and covered up as well.*
